Disclosure of Information  
on Lead-Based Paint and/or  
Lead-Based Paint Hazards

Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

Seller's Disclosure for property located at 507 Oakland Ave, Elwood, NE 68937 (address)

# Existing Home Disclosure Acknowledgement

Please confirm the following:

1. That you are buying a pre-owned home. It is not in new condition. You should not expect it to be perfect.
2. It is recommended that you obtain a general home inspection from a qualified inspector to determine the integrity and external components of the dwelling. All the inspections should be completed within 10 days after the final acceptance (or per stated in the purchase agreement)
3. That if you have specific concerns about the property such as, but not limited to: the condition of the roof or basement, furnace or air conditioning, plumbing or electrical service, structural integrity, the lot size or the location of boundaries, whether the home is on a well water system, or whether it has a septic or sewer system; we urge you to obtain an inspection by a qualified professional trained in your specific area of concern.
4. We can not guarantee that a child will attend a certain school in the school district or which schools children would attend. If zoning or future zoning or whether there are any potential code violations are important factors in your decision to purchase the property, you are urged to verify this yourself, as any information you receive may not be accurate.
5. Information on the Sellers Property Disclosure form has not been verified. If any items on said disclosure are concerns, you should seek professional advice. A home warranty or CAP Program is something you may look into and is available for you to purchase.
6. That upon your walk-through inspection prior to closing, you determine non-compliance of the working condition of the heating, air conditioning, water heater, sewer, plumbing, electrical systems, or any built-in appliances, you should either:
  - a. ensure repairs are made prior to closing
  - b. request sufficient funds to be withheld from the seller to assure compliance.

or

  - c. Not close until satisfactory written agreement is reached

REALTORS® can not be liable for defects and malfunctions in the property.
