PART III - Comments. Please reference comments on items responded to above in PART I or II, with Section letter and item number.  
Note: Use additional pages if necessary.

Asbestos taping on duct work in basement was addressed by local contractor Jack Bowen who stated that it was not damaged and was in good shape so he sealed it.

There is a cistern in the basement however it is structurally in good shape, this was also inspected by Jack Bowen.

Furnace is currently vented through the chimney and not through ductwork. It had not been a problem while we lived there, however we did not know there was no ductwork.

This has not been fixed yet due to not knowing if buyer would like to upgrade the system to a high efficiency in which case the venting will be different.
